*always listening™*

www.audio-technica.com (Japan)

For over 40 years, Audio Technica has been dedicated in advancing the art and technology of electro-acoustic transducer design. Audio Technica has become a leader in the development and marketing of award winning new microphones and accessories, from equipment for home use to high-end professional studio and live-sound wired and wireless microphone systems. Audio Technica's leadership role in the industry is evident in the daily use of AT microphones and related products in major broadcast and recording studios and by top touring musicians.
