

www.mobiltech.co.uk (UK)

In 1999 Mobile Tech UK Limited was established as a company to exclusively distribute Mobile Tech France products in UK only. Due to the success of the product range, an agreement between ESP (UK) Ltd and MTF Establish the new company named MobilTech UK Limited.

Mobil Tech International was established to reflect the new global customer base and distinguish itself from the now defunct MTF.

Today, MobilTech UK is a direct distributor of MobilTech France but MobilTech International is a completely separate company, neither employing any of the former employees nor using its production facilities.
